Grade 12 Graduation Program Examinations Scholarships
AP (Advanced Placement) and IB (International Baccalaureate) Scores

Schools with students taking Grade 12 AP and/or IB courses can submit, manually by fax to the Ministry, by October 31st, those students who meet AP exam scores of 4 and 5, and IB final result scores of 5, 6, and 7 **only if a student has not already met the calculation requirements by writing the Grade 12 provincial exams**. (Schools should check the "Summary of Scholarship Winners" report available to schools on the school secure website, in late August.) The Ministry will equate the scores to percents and count them towards the exam scores required to earn a scholarship. Original AP and IB records should be retained at the school as the Ministry has the option of requesting copies of the results. For the submission process, see Chapter 5 – Scholarships and Awards.

School Name:	**Ministry School Code:**

Personal Education Number	**Student Name**	**Course Code**	**Score**

Authorization:

"We certify that the information provided above is accurate and that we have obtained the student's permission to release their marks to the Ministry of Education for the purpose of determining eligibility to earn a Grade 12 Graduation Program Examinations Scholarship."
