Mandarin Chinese Grade 7 Collection

Chinese Mandarin Resource Book - Volume 1, 2, and 3

General Description: Produced in 1992, this three-volume resource package consists of print material, slides, audio cassettes, and a video based on seven units: rhyme, song, and poetry; language games; Chinese arts and crafts; audio-visual resources, software information, and visual aids; communicative activities; field trips; and Chinese culture. The video covers food and eating, shopping, planning the day, sites around the city, and “getting there.” Some of the information in this resource will require updating by the teacher, such as computer software, addresses, and some field trip destinations (The China Times). Many of the resources listed in unit four are dated and teachers will need to provide current replacements. The music on the audio cassettes lack clarity and student appeal. Also suitable for Introductory Mandarin Chinese 11.
