

VOCABULARY LIST

- A** allele
ash fall
asthenosphere
atomic mass
atomic number
- B** battery
- C** cell cycle
centromere
characteristic
chromatids
cilia
compass
conglomerate
cytokinesis
- D** diatomic
dike
diploid (2n)
distilled water
diversity
dry cell
- E** electroscope
emit
epicentre
equator of a cell
erosion surface
- F** F₁ generation
F₂ generation
ferromagnetic metals
(Fe, Ni, Co)
fluorescent bulb
focus
- H** haploid (n)
hemophilia
homologous
hybrid
- I** incandescent bulb (filament bulb)
index fossil
induced charge
inferred
intermediate phenotype
ion charge
- L** lithosphere
lethal genetic condition
- M** magnetometer
masked
mass number
mid-ocean ridge system
monohybrid cross
- P** phenotypic percentage
phenotypic ratio
placenta
poles of a cell
polyatomic ion (radical)
probability
Punnett Square
purebred
- R** radiometric dating
replication
residential electricity meter
refuted
right-hand rule
- S** seismic time distance graph
seismogram
seismograph
seismometer
self-sustaining
semi-permeable
shell (Bohr Model)
sill
spindle fibre
subduction
- T** three-way switch
toxins
trait
trench
tsunami
- V** Venn diagram
viral specificity
volcanic island arc
volcanic vent
- Z** zygote
