

Mathematics Test Coordinate Plane Grid

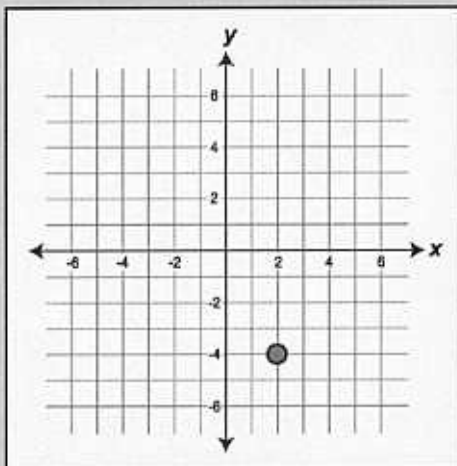

Points to Remember:

- To record an answer on the coordinate plane grid, you must have an “x” value and a “y” value.
- No answer for a coordinate plane question will have a value that is a fraction or a decimal.
- Mark only the ***one*** circle that represents your answer.

EXAMPLE

The coordinates of point A, shown on the grid below, are (2,-4).

The coordinates of point B, not shown on the grid, are (-3,1). What is the location of point B?

DO NOT MARK YOUR ANSWER ON THE GRID ABOVE.

Mark your answer on the coordinate plane grid on your answer sheet.

CORRECT RESPONSE
