**Principles of Accounting, Second Edition**

Author(s): D'Amico et al.

**General Description:**

Resource package provides an introductory in-depth presentation of GAAP - Generally Accepted Accounting Principles. The 33 teaching units contain theory, summaries, exercises, computer activities, case studies and profiles. Components comprise a student text and teacher's manual with three computer disks for Windows. Optional ancillary components include a study guide with teacher's edition. System requirements available from supplier.

**Cautions:**

"Circling method" of recording in columnar journals is not a generally accepted procedure in Canada and may be confusing to students.
