Year Recommended for Grade Collection: 2001

Modern Cabinetmaking

Author(s): Umstadd, W. D.; Davis, C. W.

General Description: This 890-page hardcover textbook is comprised of 53 chapters covering the full range of cabinet construction materials and methods. It is a very comprehensive yet easy-to-read resource. The accompanying workbook provides excellent support to the main textbook with relevant evaluation instruments and additional diagrams. Many of the common pitfalls associated with cabinetmaking are highlighted and dealt with appropriately.

Caution: *Some of the material is more advanced and exceeds the carpentry and joinery learning outcomes. Students should be guided through the resource to ensure that they know their own limitations.*
