

APPENDIX B

*Carpentry and Joinery 11 and 12
Grade Collections*

CARPENTRY AND JOINERY 11 AND 12: GRADE COLLECTION

This section begins with an overview of the comprehensive resources for this curriculum, then presents Grade Collection charts for each grade. These charts list both *comprehensive* and *additional* resources for each curriculum organizer for the grade. Each chart is followed by an annotated bibliography. Teachers should check with suppliers for complete and up-to-date ordering information. Most suppliers maintain web sites that are easy to access. There is also a chart that shows the alphabetical list of Grade Collection titles for each grade and a blank template that can be used by teachers to record their individual choices.

**OVERVIEW OF COMPREHENSIVE RESOURCES
FOR CARPENTRY AND JOINERY 11 AND 12**

- *Exploring Woodworking*
(Grades 11 and 12)

This comprehensive resource includes a 226-page text, a student workbook, and an instructor's guide. It thoroughly covers the basic information regarding woodworking methods and processes.

Note: There is no metric used.

- *Modern Cabinetmaking*
(Grades 11 and 12)

This user-friendly resource provides a comprehensive explanation of the craft of working with wood. The 890-page textbook is comprised of 53 chapters which cover the full range of cabinet construction materials and methods. The layout is sequential and logical. The accompanying workbook provides excellent support to the textbook and includes relevant evaluation instruments and additional diagrams. Many of the common pitfalls associated with cabinetmaking are highlighted and dealt with appropriately.

Note: Some of the material exceeds the expectations of the carpentry and joinery Prescribed Learning Outcomes. Students may need guidance to ensure that they are aware of their own limitations.

- *Modern Woodworking*
(Grades 11 and 12)

This print resource supports the basic requirements of the curriculum. The text is comprised of 36 chapters, covering topics that range from basic properties of wood through quite specialized procedures and materials. The resource includes a workbook and an instructor's guide.

Although the scope of the resource may exceed the expectations of the curriculum, it certainly covers the required essential information.

- *Wood Technology and Processes*
(Grades 11 and 12)

The 574-page text and student workbook, and teacher's resource guide thoroughly covers the breadth of topics related to carpentry and joinery. The organization of material and graphic representations are outstanding.

Note: For teachers who may have minimal experience, this resource provides an excellent platform of knowledge.
