

## BC PERFORMANCE STANDARDS UPDATE

The update of the BC Performance Standards is underway.

The revision to the Reading and Writing Performance Standards focuses on the front matter and the connections between the Performance Standards and the current English and French Language Arts curricula. There will be no changes to the scales or student samples. The updated Performance Standards for Reading and Writing will be posted on the web in fall/winter, 2008.

The revision to the Performance Standards for Numeracy will commence in 2009.
